ARD staff to participate in EPA Briefing for PA Senator Toomey's Staff on ETO at B. Braun Facility

On Tuesday, August 6, 2019, ARD's Monitoring ?? staff will support EPA HQ Office of Congressional and Intergovernmental Relations and R3 Office of Public Affairs in briefing PA Senator Toomey's environment, communications, and health staff on the risk factors associated with ethylene oxide (ETO), the regulatory framework for air toxics. ARD will also help in clarifying the roles and responsibilities of EPA and PADEP. The briefing was requested by Sen. Toomey's office based on recent articles in the media as well as discussions with the B. Braun facility's management.
